Postgraduate Diploma in Translation is a course that is meant to provide aspirants with a good idea about the finer aspects of translation. In today's world, translators have very much importance. This is mainly because translation plays the role of a socio-cultural bridge. This important tool meant for the imparting of knowledge that is related to any specific discipline or field.

### **Advantages or Benefits of Post Graduate Diploma in Translation**

This course helps people get jobs in many different areas. The best thing is that job opportunities are available for them across the globe. Those who had prior experience in this field will get the opportunity to get more expertise in this field. By studying translation, aspirants will be able to get a better understanding about the function form of different languages or the languages they have specifically chosen.

### **What to do after PGDT?**

Career options available for translators and interpreters are quite ample these days. As their job is to not only convert one language to the other but also to relay concepts as well as ideas that lie within languages. Translators must first of all thoroughly understand the central point and convert in to a form that is easier for people to understand. Besides this, they also need to be very much sensitive to the language forms of different cultures.

### **Job and Career options for PGDT**

The career opportunities available for students who have done their PGD in translation will have ample career opportunities. Some people study both translation and interpretation. The career opportunities available for these people are much greater when opposed to people have proficiency in either one of these fields. But this does not mean that the career opportunities available for individuals of these fields are less. Interpretation and translation have their own importance in the society these people work and live in.

### **A few job profiles available comprises of:**

Judiciary interpreters and translators

Medical interpreters and translator

Sign-language interpreters

Conference interpreters

Literary translators

Localization translators

Translators can find work with embassies, large and small firms and they can even work as freelancers. Translators will get excellent job opportunities abroad if they have a proficiency in any foreign language(s). As a matter of fact, because of the many career opportunities available for aspirants today, they can afford to be choosy and select a career of their choice. In addition to this, the advancement of technology has enabled aspirants to work from home or take up work from any part of the world. Tight schedules must be kept by these people as to perform all their work within the given deadline.

### Remuneration after PGDT

The salary of translators is depended greatly on many factors. They are:

Language Sets

Years Of Experience

Formal Education

Certifications

Mastery Of Specialized Industry Terminology

General Employment Circumstances

The type of firm or establishment that employs the translator will also determine the salary of that person. For example, people who are working on classified jobs with the government or highly classified medical documents for top notch healthcare agencies tend to earn more than those who are employed by low profile clients' for simple projects. Their salaries shall range from Rs.120, 188/- to Rs 1,465,765/- a year.
